This allocation of $165,000 to ASUA Club Funding provides direct support to UA clubs under the Associated Students of the University of Arizona (ASUA).

ASUA allocates funding to over 380 clubs and organizations. The Student Services Fee funding provides a portion of the support for these allocations. Any ASUA recognized club or organization can apply for funding for a variety of club expenses including conference fees, travel expenses, event expenses, etc.. Clubs use the funds to host events that benefit both the campus and the local Tucson community. Funding allocations are determined by an Appropriations Board, consisting of seven undergraduate and graduate student directors who review applications for compliance with board policies and precedents.

The Club Funding initiatives align well with the goals of the Office of the Provost by providing leadership opportunities, career-related learning, and opportunities for students to apply what they learn in their academic coursework in engaging real-world situations. This funding impacts thousands of students at UA and by supporting a variety of clubs, ASUA Club Funding makes a significant and positive impact on the diverse student population at UA.

This allocation is mandated in the Student Services Fee Governing Document, which states that $165,000 of the fee will be retained for ASUA Club Funding.
