The Student Success District is a multifaceted campus project designed to bring student resources together in a cohesive manner in a central location on campus. This capital project was undertaken with support from the Student Services Fee Board to improve the student experience at the University of Arizona. The Student Services Fee was raised beginning in FY18, from $40 to $75. The intent of this increase was two-fold; provide additional resources for the Board to allocate to proposals and provide funding to support the Student Success District. The fee pays a little over $1.7M annually to satisfy a portion of the debt payment for the Student Success District. This additional funding for FY22 and FY23 is needed for the plan of “Care” for Bartlett Student Success District for the day-to-day assist and management of the facility. After a budget is established for FY24 and future years for supporting the Student Success District, the plan is for this cost to be shared by the Student Services Fee, and the Health and Rec Fee.

The Student Services Fee Reserve policy allows for an annual review of the SSF reserve fund. If excess reserve funds are available, allocations can be made to projects that align with the mission of the Student Services Fee program. This allocation was made in accordance with this policy and approved by the Provost.
