ID #	Project	Requested	Vote to fund: Yes/No/Abstain
GFMG 20.01	Solar Storage Building	\$1,800	0-10-0
GFMG 20.02	Fill it Forward Greek	\$2,000	0-10-0

	Life		
GFMG 20.03	Solar Generator Project	\$2,000	8-2-0

GFMG20.01 Solar Storage Building

The project relies heavily on unpaid student labor. The committee feels that the project should buy a shed outright instead of using student’s time without pay.

Vote: 0-10-0

GFMG20.02 Fill it Forward Greek Life

The positive aspects of this project are that it is low cost per student and takes a hands-off approach. However, the committee feels that stickers are not a strong incentive for purchasing a reusable bottle. The committee recommends doing an audit and coming back with data to support the proposal in the future.

Vote: 0-10-0

GFMG20.03 Solar Generator Project

This project appears to give students hands-on experience in their field while also promoting renewable energy use.

Vote: 8-2-0
